Jordan Mitchell

Senior Full-Stack Developer

Brisbane, QLD | 0400 000 000 | jordan.mitchell@example.com | linkedin.com/in/jordan-mitchell-example | github.com/jmitchell-example

PROFILE

Full-stack developer with 9 years' experience delivering cloud-hosted web applications for government and commercial clients. Strong in .NET, React/Next.js and Azure, with a track record of shipping maintainable systems, automating manual processes and working directly with stakeholders.

KEY SKILLS

Languages	C#, TypeScript, JavaScript, SQL, Python
Frameworks	.NET 8 / ASP.NET Core, Next.js, React, Entity Framework
Cloud & DevOps	Azure App Service, Container Apps, Functions, Azure SQL, GitHub Actions, Docker
Platforms	Microsoft 365, SharePoint, Power Automate, Stripe, Supabase

EXPERIENCE

Senior Full-Stack Developer — *Mar 2022 – Present*

Example Digital Pty Ltd, Brisbane

- Lead developer on a booking and payments platform processing 40,000+ transactions per year (Next.js, .NET minimal API, Stripe).
- Migrated three legacy on-premises applications to Azure Container Apps, cutting hosting costs by 35%.
- Introduced CI/CD with GitHub Actions; release time reduced from half a day to under 20 minutes.
- Mentor two junior developers and run fortnightly code reviews.

Software Developer — *Feb 2019 – Feb 2022*

Sample Government Agency, Brisbane

- Built an internal case management system in ASP.NET Core and SQL Server used by 300+ staff.
- Automated approval workflows with Power Automate and SharePoint, removing ~15 hours of manual work per week.
- Worked with business analysts to translate policy requirements into user stories and test cases.

Junior Developer — *Jan 2017 – Jan 2019*

Placeholder Solutions, Gold Coast

- Developed and maintained client websites and REST APIs in C# and JavaScript.
- Wrote SQL reports and stored procedures supporting monthly client billing.

EDUCATION & CERTIFICATIONS

Bachelor of Information Technology — *2013 – 2016*

Queensland University of Technology

Microsoft Certified: Azure Developer Associate (AZ-204) • Microsoft Certified: Power Platform Developer Associate (PL-400)
